

Safety Consulting

Emergency & Disaster Preparedness Training

CPR

All classes are facilitated by a Certified CPR Instructor using American Heart Association curriculum. This classroom course teaches basic CPR skills such as activating 911, accessing an AED, and performing chest compressions and breaths. The course provides training for anyone who wants to learn basic CPR and obtain a course completion card.

For more information contact: Ryan McEachen, Instructor @ 951-484-8996 or rmceachen@safetyandconsulting.com. Call, text, or email to register for the next available class date.
